

TETE Sets Vote on \$1.1 Billion Bradbury Capital Business Combination

23-03-2026

New activity is brewing for Technology & Telecommunication Acquisition (TETEF). The company has submitted a Form DEFM14A to the SEC, indicating an upcoming shareholder vote. This form gives shareholders all the information they need to develop an informed vote.

Technology & Telecommunication Acquisition Corporation is a Cayman Islands exempted special purpose acquisition company focused on effecting a business combination with operating businesses, primarily via mergers and related transactions. Through a two-step process involving a reincorporation merger into TETE Technologies Inc. as PubCo and a subsequent merger of its subsidiary with Bradbury Capital Holdings Inc., the group will create a new listed entity, Bradbury Capital Inc., with Holdings as a wholly owned subsidiary.

The company has called an extraordinary general meeting on March 30, 2026, to seek shareholder approval for the business combination with Bradbury Capital Holdings, related reincorporation steps, a corporate name change to Bradbury Capital Inc., new governing documents, and a Nasdaq-mandated share issuance. Investors will also vote on an incentive plan for the combined company and the issuance of up to 110 million new PubCo shares as consideration valued at \$1.1 billion, which will significantly expand the equity base and formally establish the combined structure as the post-deal listed vehicle.

More about Technology & Telecommunication Acquisition

Technology & Telecommunication Acquisition Corporation is a Cayman Islands-incorporated blank check company formed to pursue mergers, share exchanges, asset acquisitions, stock purchases, recapitalizations, reorganizations or similar business combinations with one or more target businesses. Following its planned business combination, the surviving public entity will be renamed Bradbury Capital Inc. and will hold Bradbury Capital Holdings Inc. and its subsidiaries as operating assets.
